

DESIGN ZONE all the important information in here
(4.3" X 3")

4.875" x 3.5" Flat Card Template

BLEED - Your design should extend to this edge. This is the "full bleed" area which serves as a safety net of what will be cut in production.

CUT LINE - The actual size of the card. Your card will be cut to this size.

DESIGN ZONE - All of your important information should go into this area. Anything like text or borders should also stay within these edges.

DO:

- Work in CMYK and save in RGB.
- If you are emailing us the PDF, please remember to **OUTLINE** your text
- Export your file as a 300 DPI PNG if you are making a graphic in photoshop and save as a JPG if it is just a photograph.

DON'T:

- Have a white edge for the bleed area. it may cut with a thin white strip if there is no bleed.
- Add additional bleed lines. They may also appear in print
